Is a solar inverter a good alternative to power holding company of Zambia?

In a country like Zambia where electricity supply is less than adequate and the weather doesn't help matters too, a solar inverter is more than necessary. It is not just a great alternative to the Power Holding Company of Zambia, it is actually a better and cheaper alternative considering the circumstances. Several factors are adduced for this.

How does solar power work in Zambia?

Several communities, entrepreneurs, the government and NGOs work together to increase the share of solar power in the country. The Zambian solar sector consists of several segments. Most installations generate power with the use of solar photovoltaics (PV).

Is Zambia's Electricity problem worsening over time?

In fact, many believe the situation has worsened over time. Presently, the average Zambian home does not get more than six hours of electricity from the DISCOs on a daily basis. It is this appalling situation that has led many Zambians to seek alternatives to what is supplied by the national grid.
