These were installed beginning in 1984 and, in the late 1990s, 34% of families in the outer islands had a PV system (which generally powered 1-3 lights and perhaps a few hours a day of radio use). Each of the eight islands had a medical centre...

Energy (kilowatt-hours, kWh) Energy, on the other hand, is more a measure of the "volume" of electricity - power over time. You'll usually hear (and see) energy referred to in terms of kilowatt-hour (kWh) units. The place you'll see this most frequently is on your energy bill - most retailers charge their customers every quarter based (in part) on how many kWh of electricity they ...
