

Where to install solar panels in Luxembourg?

Ideally, choose a company "Made in Luxembourg" and approved by the Klima agency to install your solar panels. We work with the most serious and reputable companies in Luxembourg for the installation of solar panels. If you would like a quote for your project, request a free quote.

How do solar panels work in Luxembourg?

In Luxembourg, the main model is that of self-consumption with sale of surplus. To put it plainly: owners of solar panels consume the energy produced by their panels directly. If there is any electricity left over, it is sold back to the grid at a rate set by the government. This system has a number of advantages:

Is Luxembourg a good location for solar power?

Luxembourg is a suitable location for generating solar power throughout the year. The average energy production per kW of installed solar varies by season: 5.33 kWh in Summer, 2.60 kWh in Autumn, 1.22 kWh in Winter, and 4.63 kWh in Spring.

SolarCells is the first producer of photovoltaic panels in Luxembourg, located in Hollerich. We manufacture high-quality panels using European components, certified with IEC standards, offering yields exceeding 400 Wc.

We install complete photovoltaics systems. Discover the best solar solution with our experts to meet your energy needs. We provide thorough surveying services to ensure your solar panels adheres to all necessary requirements structurally, ...

Sunenergy Luxembourg specialises in the design, supply, installation and maintenance of solar panels and other renewable energy technologies. Our solutions for solar and storage applications, intelligent energy management systems and modern charging solutions for e-vehicles enable people and companies to achieve greater energy independence

Créée en 2007, High Tech Solar est une entreprise spécialisée dans l'installation de panneaux solaires et solutions énergétiques au Luxembourg, en Belgique et dans le nord de la France. Avec plus de 10 000 installations réalisées, nous sommes devenus un des leaders dans le secteur des énergies renouvelables et du photovoltaïque.

Seasonal solar PV output for Latitude: 49.6113, Longitude: 6.1294 (Luxembourg, Luxembourg), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API:

panneaux solaires et solutions énergétiques au Luxembourg, en Belgique et dans le nord de la France. Avec plus de 10 000 installations réalisées, nous ...

Solar panels use photovoltaic cells to convert sunlight into direct current (DC) electricity. An inverter then converts the DC electricity into alternating current (AC) electricity, which can be used by household appliances, reinjected into the grid or stored in a battery.

Installing a solar panel in Luxembourg costs between EUR850 and EUR1050 per panel. On average, you need 2.3 panels to produce 1 kWp. 1 kilowatt-peak therefore costs between EUR1955 and EUR2415, excluding subsidies.

We install complete photovoltaics systems. Discover the best solar solution with our experts to meet your energy needs. We provide thorough surveying services to ensure your solar panels adheres to all necessary requirements structurally, municipally and legally.

Solar Depot est un nouvel acteur dans la distribution de matériel solaire. Forte d'une expérience de 15 ans dans le photovoltaïque, notre équipe d'experts saura vous conseiller et vous accompagner tout au long de vos projets.
