

## 800W solar power station

What is aferiy P010 portable power station?

Lightweight, compact, and powerful, AFERIY P010 portable power station with 512Wh large capacity and 800W pure sine wave AC output. Equipped with ultra-stable LiFePO4 battery pack and BMS battery system with safety protection function. It supports 4 charging methods and can be fully charged in 1 hour.

Does aferiy P010 800W have an ups function?

The AFERIY P010 800W power station is equipped with a UPS function, which can provide uninterrupted power to electronic devices when power outages. The UPS will automatically switch over and start the power station within 10 milliseconds, restoring power to your equipment.

Can aferiy portable power station be connected to a solar panel?

The AFERIY portable power station can be connected to the AFERIY solar panel for charging, using green and renewable solar energy, which is economically and environmentally friendly. With a silent design, the sound of the power station is less than 53 dB when it is working and charging, so you can use it outdoors overnight.

Why should you choose aferiy portable power station?

Meet the needs of outdoor power supply anytime, anywhere. All of AFERIY's portable power stations are pure sine wave AC output, which makes the appliance run more stably. Interference-free output can better protect your charging device! Enjoy a peaceful life during the camping, off-grid living, or RV trip.

What is aferiy portable power station?

AFERIY portable power station features an uninterrupted power supply (UPS) function to provide stable and uninterrupted electricity to ordinary household appliances when power goes out. Home backup, RV life, camping buddy. Power your on-the-road journey. Explore more possibility.

What is the output capacity of a P010 power station?

Regarding the capacity of the power station, the P010 has a nominal capacity of 512Wh. In practice, the output capacity is generally lower than the nominal capacity due to the following reasons:
