HIMOINSA, a leader in power technology solutions and part of the Yanmar Group, has launched its latest innovation: the HGY Series.. This new engine line, with a capacity range from 1 250kVA to 3 500kVA (with future plans to reach 4 000kVA), has the potential to significantly help address Africa's growing energy needs, particularly in key sectors critical to ...

Eskom supplies about 95% of South Africa's electricity and over 40% of Africa's. South Africa's installed capacity was 54.7 GWe as of 2022, of which coal-fired stations accounted for about 39.8 GWe. South Africa's main coal reserves are concentrated in Mpumalanga in the northeast, while much of the load is on the coast near Cape Town and Durban.

Clean and green power. Our green commitment is evident in the actions we take, such as the windmill on our

Belgian factory premises, which compensates for 25% of our energy consumption in Belgium. Additionally, we have built a small solar farm for our Polish factory, which generated in 2023 - 23 MWh.
