

We believe the combination of clean fuel and fuel cells together with batteries is the solution to reach the goal of zero emissions by 2050 for the marine industry. Together with partner Toyota, Corvus Energy developed a sustainable, large ...

Energy storage pioneer Corvus Energy is set to start development and production of sustainable, large scale maritime-certified hydrogen fuel cell systems. Production will be located in Bergen, Norway with Toyota onboard as key partner and supplier of mass-produced fuel cell technology.

The battery factory in Bergen will supply Corvus" largest market--the growing European market--and contribute to employment in Bergen and across Northern Europe. Built on time and on budget, the factory comprises a robotized and digitized production line with nine robotic stations and a capacity of up to 400 megawatt hours (MWh) per year.

The Norwegian-Canadian energy storage solutions provider Corvus Energy strengthens its position in Norway and announces plans to build a battery factory in the Bergen area. The reason for the establishment is strong growth in the Norwegian market as a result of new ferry tenders and high demand for hybrid energy systems in the offshore and ...

Bergen, 19 January 2024 - Corvus Energy, the world leader in zero-emissions energy solutions for maritime, offshore and port applications, announced today it has secured an investment ...

November 7th 2024, BERGEN -- Corvus Energy, the leading supplier of zero- emission solutions for the maritime industry is proud to announce that, as of this week, Corvus Energy battery ...

November 7th 2024, BERGEN -- Corvus Energy, the leading supplier of zero- emission solutions for the maritime industry is proud to announce that, as of this week, Corvus Energy battery systems have cumulatively helped their customers reduce 10 million tons\* of CO2 since the first installation in 2013.

Corvus Energy has taken a significant step towards sustainability by shifting from international to local sourcing for a vital plastic component used in battery production. This new partnership with Bergen Plastics, located just across the street from their factory in Midtun, Norway, exemplifies their commitment to reducing carbon footprint and ...

Bergen, 19 January 2024 - Corvus Energy, the world leader in zero-emissions energy solutions for maritime, offshore and port applications, announced today it has secured an investment from Woven Capital, Toyota's growth fund, to accelerate the development of its growing product portfolio in battery storage and hydrogen fuel cells, and to ...
