Who is E-One Moli Energy?

E-One Moli Energy Corporation established in 1998 is a world-class manufacturer of superior quality and high-performance rechargeable lithium-ion cells. E-One Moli Energy has been known for more than 40 years for its leading position in the battery industry by the brand name MOLICEL®;

What is E-One Moli Energy's new high-performance lithium-ion battery facility?

E-One Moli Energy's new high-performance lithium-ion battery facility in Maple Ridge is powered by our renewable electricity. Canadians are more reliant on rechargeable batteries than ever before, especially the lithium-ion variety. These power our everyday devices from smartphones to electric toothbrushes and laptops.

Will E-One Moli Energy build a battery plant in Canada?

(Photo courtesy of Taiwan Cement) TAIPEI -- Taiwanese battery maker E-One Moli Energy will invest 25.5 billion New Taiwan dollars (\$796 million) to build a plant in western Canada that makes lithium cells, the company announced here Wednesday.

Where is E-One Moli based?

The Government of B.C. is contributing as much as \$80 million to E-One Moli's new facility in Maple Ridge, which will anchor the company's North American production.

How many battery cells does E-One Moli produce a year?

Photo by Darryl Dyck /THE CANADIAN PRESS E-One Moli's Maple Ridge factory is capable of producing 24 million battery cells a year now. According to So, the company wasn't able to secure an anchor customer for the expansion, which was intended to produce 130 million battery cells a year.

What is Moli Energy?

Moli Energy was formed not to invent a rechargeable lithium battery, but to be the first company in the world to commercialize it. The team consisted of a handful of employees -- most of who were affiliated with Haering -- and they decided to focus on lithium-metal batteries.
