

The Deye BOS-G series is a state-of-the-art LiFePO₄ battery system designed to provide reliable, safe, and efficient energy storage for your home or business. With a wide range of configurations and capacities, the BOS-G series offers a versatile solution to meet your specific energy needs.

With a wide range of configurations and capacities, the BOS-G series offers a versatile solution to meet your specific energy needs. The BOS-G series utilizes advanced LiFePO₄ cell technology, known for its superior thermal stability, ...

The installation and operation manual applies to the modular battery energy storage system. Please carefully read this installation and operation manual to ensure the safe installation, preliminary debugging, and maintenance of BOS-G. Installation, preliminary debugging, and maintenance must be carried out by qualified and authorized personnel.

Explore the efficiency of the Deye Single Battery BOS-G 5.12KWh, part of the Deye HV Battery Set. This high-voltage battery set offers a reliable and compact energy storage solution for both residential and commercial applications.

With its advanced lithium-ion technology, the Deye Lithium HV Battery Set BOS-G provides a sustainable and eco-friendly battery energy storage solution for various applications, including renewable energy storage, off-grid systems, and grid-tied installations.

With a wide range of configurations and capacities, the BOS-G series offers a versatile solution to meet your specific energy needs. The BOS-G series utilizes advanced LiFePO₄ cell technology, known for its superior thermal stability, high cycle life, and excellent safety profile.

With its advanced lithium-ion technology, the Deye Lithium HV Battery Set BOS-G provides a sustainable and eco-friendly battery energy storage solution for various applications, including renewable energy storage, off-grid systems, ...
