In Italy, Alpiq is currently active through various companies in the field of power generation and provides energy services. Alpiq, which is founded upon Atel and is hence able to profit from its one hundred years of experience, has been present in Italy since 1999, which means from the very start of the liberalisation of the electricity market.

Extreme price increases on the energy markets caused adjusted net revenue to more than double compared to the previous year, increasing from CHF 2.7 billion to CHF 6.9 billion. At the same time, Alpiq was able to mitigate the risks despite unprecedented price distortions on the international energy exchanges.
