

Aluminum Energy Storage Cabinet

What types of outdoor battery cabinets are available?

A range of outdoor energy storage battery cabinets and outdoor lithium battery cabinets are available in standard and custom configurations, can be pole-mounted or ground-mounted.

What is a battery storage enclosure?

Custom metal enclosures designed to optimise your battery storage. Our battery storage enclosures will keep your battery energy storage system (BESS) protected from the elements. We custom-make bespoke enclosures in a range of sizes, with enormous battery storage possibilities.

Can Amcanu enclosures be galvanised?

Any Amcanu enclosure can be galvanised. We can galvanise entire enclosures to give the most robust finish, or just protect critical parts that are most prone to wear or accidental damage. Our battery storage enclosures will keep your battery energy storage system (BESS) protected from the elements.

What is an energy storage enclosure?

Our energy storage enclosures are designed to maintain the optimum ambient temperature for your batteries. Whether you need a liquid-cooled or air-cooled system, we'll design the best solution with you. Lifting an unbalanced enclosure is a health and safety hazard, especially when full of heavy batteries.

Are Aze battery racks & enclosures safe?

Keep your batteries safe from weather, vermin and damage with our battery racks and battery enclosures. AZE have enclosures for wall or floor mount with models available for indoor and outdoor applications. Our racks and enclosures create a safe and professional look.
