Who are ampyr & AGP sustainable real assets?

We're partners for the long-term, with the backing of AGP Sustainable Real Assets ('AGP'), a global investor in sustainable infrastructure and technologies. AMPYR, the energy division of AGP, is a leading player in the global energy transition. We combine global expertise with local capability to unlock the potential of onsite energy.

Who is ampyr Energy USA?

AMPYR Energy USA continues to extend AGP's experience in developing large-scale renewable power projects in Asia-Pacific and Europe, and Hartree's cutting edge power trading analytics and zero carbon solutions to build out a large solar capacity in one of the largest and fastest growing renewable energy markets.

Who is ampyr group?

AMPYR Group have a global portfolio of 365+ projects adding to over 12 GW of utility scale Solar PV, Wind, and Battery storage capacity under development. The Group has 12 offices across 7 countries/4 continents, and a team of over 100 professionals.

I recently gave a presentation on the distributed energy market, which refers to renewable assets located on-site and linked directly to customers behind the meter. At ADE, ...

As distributed energy enables generation assets to be sited close to where the energy will be used, it can play a pivotal role in supporting future energy systems. Specifically, it can reduce energy losses from transmission, mitigate the need for future grid upgrades and enable the rapid deployment of renewables.

I recently gave a presentation on the distributed energy market, which refers to renewable assets located on-site and linked directly to customers behind the meter. At ADE, we believe the distributed energy market will be one of the highest-growth areas this decade. that's why we founded ADE - to capitalise on this trend.

AMPYR Distributed Energy (ADE), a subsidiary of AGP Sustainable Real Assets, designs, builds, owns, and operates clean energy technologies that help its customers go green and reduce ...

AMPYR Energy is AGP Sustainable Real Assets' global renewable energy development and operating platform, active across: On-shore wind; Ground-mounted solar; Rooftop and behind-the-meter solar; Battery energy storage systems; Energy as ...
