

Through its renewable subsidiary Enel Green Power España, Endesa today presented its future plan for Andorra following the award of the tender called by the Ministry of Ecological Transition and the Demographic Challenge and ...

The 46.66-MWp Sedeis V solar farm is located on land once occupied by Andorra's now closed landfill. The plant will be capable of generating more than 79.95 GWh of electricity per year, providing permanent employment for eight people in operation and maintenance for the next 30 years, Endesa said.

This is another step towards the digitalisation of the area surrounding Andorra together with the development of 10 energy communities. These are Andorra, Híjar, Albalate del Arzobispo, Puebla de Híjar, Jatiel, Castelnou, Ejulve, Molinos, Alacón and Alcorisa.

Endesa, through its renewable subsidiary Enel Green Power Spain, has been the provisional winner of the fair transition tender in Andorra, obtaining the right to connect 953 MW and the option to confirm up to 1,200 total MW.

Endesa, through its renewable subsidiary Enel Green Power Spain, has been the provisional winner of the fair transition tender in Andorra, obtaining the right to connect 953 MW and the option to confirm up to 1,200 ...

FEDA is the public utility providing electricity to Andorra and together with Hitachi Energy worked to ensure a sustainable energy future for its people without compromising their ancestral harmony with nature

Through its renewable subsidiary Enel Green Power España, Endesa today presented its future plan for Andorra following the award of the tender called by the Ministry of Ecological Transition and the Demographic Challenge and which has just been confirmed.
