We have installed panels in houses with slate roofs, where the aesthetics of the panels fit very well with the color ranges of the valley. As the roofs are steeply sloped due to snow load regulations, our panels will receive sunlight even in winter.

Standard range of solar panels are made using standard cells without making any alteration to the cell's physical and/or electrical characteristics. The standard range of DUSOL modules consists of either 36, 60 or 72 cells interconnected to elevate the voltage and keep the current equal to the cells' current. As a solar specialist with more than 30 years of experience in photovoltaic (PV ...
