ANT Energy Solutions. The solar highway to Australia's renewable hydrogen economy . Modelling from a new report backed by ARENA has found that on-site solar electrolysis is not only the most cost-effective way of reaching Australia's ambitions of both a domestic and export hydrogen economy, but perhaps the only way. April 28, 2020 ...

ANT energy management software aims at complete control over the use and cost of utilities in the factory. Correlation with production data allows for full analysis and transparency of the actual production costs. Active industrial monitoring supports detection of leaks and waste of utilities that can be easily missed and just as easily fixed.
