

# ApX hv battery system Mongolia

Growatt has its Plug-and-Play solution that enables efficient installation, and APX HV battery eliminates the pre-charging process, reducing efforts and time needed during parallel connection and maintenance to the greatest degree.

APX HV Battery &#183;Flexible capacity options, 5kWh to 30kWh &#183; Module level energy optimization &#183; Support to mix new and old battery modules in one system &#183; Easy installation with modular and stacked design &#183; Long lifespan, 10 years warranty Power Module Battery Module (Modular Level Energy Optimizer) SOH SOC

Growatt has its Plug-and-Play solution that enables efficient installation, and APX HV battery eliminates the pre-charging process, reducing efforts and time needed during parallel connection and maintenance to the ...

This new APX HV Battery was launched to the market last December, applying a major revolution called Soft-switching Parallel Connection Technology that sets the solution apart. This battery solution eliminates the energy mismatch effect between battery modules, and enables each module to be fully charged and discharged independently, thus ...

Growatt has announced the launch of a one-fits-all APX HV battery, incorporating innovations in performance, operation, protection and installation. Integrated with novel soft-switching parallel connection technology, the new product delivers more energy by eliminating the effect of mismatch between packs, enabling each module to fully charge ...
