

Aramis energy Chad

What does Aramis do?

Aramis: an international group of companies, headquartered in Malaysia, and established throughout Asia. Engaged in engineering, project management and consultancy services for the Oil & Gas exploration, production, gas treatment, LNG, refining, petrochemicals, chemicals, energy, environment, mining and process industries.

What is the Aramis project?

The Aramis project, a collaboration between TotalEnergies, Shell, Energie Beheer Nederland (EBN) and Gasunie, aims to make a significant contribution to the energy transition by reducing CO₂ emissions for the hard-to-abate industries.

How can Aramis help businesses achieve net-zero emissions by 2050?

Many businesses aim to achieve net-zero emissions by 2050 or sooner. Aramis wants to support these ambitions by providing CO₂ transport to unlock storage capacity for parties that seek emissions reduction by means of CCS at scale. Do you want more information about CCS and the energy transition?

Does Chad have solar energy?

This is unusual for a land-locked country, but in this case, Chad's topography gives rise to high-speed winds at certain high altitudes, thus enabling the potential for wind energy generation (Mukasa, Mutambatsere, Arvani, & There is also the potential for solar energy generation in Chad, especially in the north.

Does Aramis have a contract with JGC-s consortium?

JGC-S Consortium has awarded a significant contract to Aramis for Commissioning of Nghi Son Refinery Process units. This contract comes as continuation of the earlier contract running since December 2015 for pre-commissioning and commissioning of the refinery Utilities. Download our brochure!

How much oil does Chad have?

Chad has the 10th largest oil reserves in Africa, estimated at 1.5 billion barrels of oil in 2013 (Table 3) (EIA, 2013). Chad started commercial oil production in 2003, when the 1,070 km Chad-Cameroon pipeline (CCP) was finished, allowing exports from the oil fields in the Doba Basin of southern Chad

Chad: Bringing Energy to a very poor Region The total lack of energy blocking this region to develop by its own The parastatal Chad Water and Electric Society (STEE) provides power for 15% of the capital's citizens and covers only 1.5% of the national population.
