

Aramis energy South Georgia and South Sandwich Islands

South Sandwich Islands, group of actively volcanic islets in the South Atlantic Ocean, north of the Weddell Sea and 470 miles (760 km) southeast of the island of South Georgia. They extend for 190 miles (305 km), occupy 120 square miles (310 square km), and are covered with glaciers.

We give information about South Georgia and the South Sandwich Islands in two main ways. Although there is some overlap, they are largely complementary. The virtual tour (opens in a new window) uses a set of standard headings for each territory and, within these headings, presents what is essentially an illustrated slide-show, which can be ...

Aramis will capture carbon dioxide (CO₂) emissions from industrial sources and transport them for permanent storage in depleted North Sea gas fields. The captured CO₂ will be transported either via onshore pipelines or ships to a hub in the Port of Rotterdam.

South Georgia and the South Sandwich Islands (SGSSI) comprise an Overseas Territory of the UK. For over two centuries, the islands and surrounding waters were subject to serial over-exploitation of commercially valuable marine species. First seals, then whales, and later some species of fish were harvested to virtual economic extinction.

South Georgia and the South Sandwich Islands, SGSSI)

South Georgia and the South Sandwich Islands (SGSSI) is a British Overseas Territory in the southern Atlantic Ocean. It is a remote and inhospitable collection of islands, consisting of South Georgia and a chain of smaller islands known as the South Sandwich Islands. South Georgia is 165 kilometres (103 mi) long and 35 kilometres (22 mi) wide ...

South Georgia and The South Sandwich Islands, SGSSI,

South Georgia and the South Sandwich Islands are a collection of exceptionally remote islands in the Southern Atlantic. Although considered as one entity they represent two physically distinct island groups, with the South Georgia cluster ranging between 560 and 800km west of the South Sandwich Island arc (Figure 1).
