

Arcadia solar panels Chad

Why should you choose Arcadia Solar?

Arcadia Solar offers energy savings, financial benefits, and sustainable living. You can save energy and cash with energy monitoring apps that enable real-time tracking of your household's consumption and associated costs. User-friendly electricity tracking apps make monitoring your energy usage effortless and convenient.

Will a solar power plant save money in Chad?

The solar photovoltaic plant at Djermaya, 30km north of N'Djamena, the capital, "will be the first utility-scale renewable energy project and will be the first privately owned, financed and managed power plant in Chad. It will generate significant savings for the country," Pacquement explains.

What is Arcadia's community solar program?

Expanding geographic reach: Arcadia's community solar program spans across 15 states from coast to coast, connecting over 223K subscribers to active or planned solar projects. Environmental impact: This 2 GW of clean energy capacity is equivalent to preventing more than 2 billion pounds of coal from being burned to power the grid each year.

Who is Arcadia solar?

As the national leader in community solar management, Arcadia's expertise empowers you to accelerate the solar movement with ease. Whether you're looking for savings or subscribers, we've got you covered. Renters and homeowners, connect to a local solar farm for no extra cost and get annual savings on your power bill.

Why did Arcadia reach 2 GW of community solar capacity?

"We're thrilled to announce we've reached two gigawatts (2 GW) of community solar capacity, extending our position as the market leader," said Kiran Bhatraju, Arcadia's founder and CEO. "Hitting 2 GW is a testament to our unwavering commitment to providing accessible, affordable, clean energy to communities across the nation."

Who is Arcadia?

Arcadia was founded in 2014 on the belief that everyone deserves access to clean energy. Our initial investment in community solar drove progress toward that vision -- then we built our data platform to solve for access to energy data. Today, we empower businesses everywhere to join our mission to achieve a zero-carbon future.

US-based Convalt Energy has signed a memorandum of understanding with Chad's Ministry of Water and Energy for three community solar plants totaling 3 MW, along with 1.5 MWh of battery storage.
