

Argentina jolywood solar panels

What is the difference between jolywood and Topcon solar cells?

Jolywood has delivered more than 4.1GW N-Type solar modules in more than 50 countries. Comparing with P-type solar cells, TOPCon cells have longer lifetime, lower degradation and higher potential of efficiency.

Could a new solar panel Revolutionize Your solar projects?

We are excited to share an important update that could revolutionize your solar projects. Through our collaboration with Jolywood, we have developed a solar panel that allows for safe installation on metal roofs of non-sprinkler protected buildings without the need for a one-hour fire-rated separation.

Why should you choose jolywood Niwa series Topcon solar modules?

The company's Niwa series TOPCon products are characterized by its high power, high reliability, high bifacial rate, low degradation, low temperature coefficient and a series of advantages which are deeply praised by customers. Jolywood has delivered more than 4.1GW N-Type solar modules in more than 50 countries.

Are jolywood panels fire rated?

Even if your buildings are sprinklered or of concrete roof, adoption of these enhanced fire certifications ensure that the Jolywood panels have minimal contribution to fire hazards, exhibit excellent resistance to ignition and flame spread, and maintain their structural integrity under fire conditions.

Is jolywood a Tier 1 company?

Jolywood was listed at the Tier One brand by Bloomberg New Energy Finance and covered by MunichRe reinsurer. The company has established Jiangsu Province efficient photovoltaic engineering technology research center, provincial enterprise technology center, provincial intelligent factory and CNAS certified Photovoltaic Testing

Jolywood lanza un módulo solar TOPCon de 615 W y un otro all-black para el segmento residencial. El fabricante chino ha lanzado dos nuevos productos bifaciales basados en su tecnología de células TOPCon 2.0 de tipo n.

With a production of 3 GW per year, the Chinese manufacturer Jolywood is the world leader in the production of N-type solar cells and modules. At the same time, the tier-1 manufacturer is the largest producer of module backsheets, with a 30% market share.
