

Augwind energy Wallis and Futuna

Who is augwind energy?

Augwind Energy |4,200 followers on LinkedIn. Augwind is a technology Companyfocused on the development of innovative solutions for energy efficiency and energy storage. The Company's proprietary AirX technology offers a groundbreaking approach to high-capacity energy storage and industrial energy efficiency.

How does augwind work?

Augwind operates on two fronts: the energy storage market and the air compressor market. It operates in both using an underground air compression technology that enables savings of up to 40% in the energy consumption required to compress the air at high pressure.

How efficient is augwind's airbattery system?

Augwind's AirBattery system has an energy efficiency that is generally similar to the efficiency of pumped storage stations.

When will augwind be built?

It will be built in 2023,subject to the signing of a detailed agreement with the IEC. If all goes to plan,the IEC will commission additional Augwind storage in the future. The company has now signed more than 200 mw/h of deals in Israel,including the agreement with the IEC,and reports intense interest from companies overseas.

Is augwind a good battery solution?

Dr. Yogev further added: "Augwind's AirBattery system, in addition to high efficiency, is breakthrough news as it provides a better solution vis-à-vis lithium battery solutions at almost every possible level.

How does augmented wind work?

Augwind, short for augmented wind, has developed a closed, circular system that uses water to compress air. This in turn is stored underground in long, flexible, balloon-like tanks, and when the energy is needed, the air is released, pushing out water which in turn drives a turbine that creates electricity.

The company was founded by Or Yogev, a veteran energy researcher holding a mechanical engineering Ph.D from CalTech university. ... Our interdisciplinary team of engineers is putting the theory into practice at Augwind's 2 R& D sites, and at our collaboration partners' facilities.
