

Aura power Syria

What does aura power do?

Aura Power develops renewable energy projects across the globe, helping communities benefit from the transition to renewables. **SCROLL TO LEARN MORE** We work closely with local stakeholders to provide local benefits in the communities that host our solar farms. We believe that better change happens together.

How will Syria's fall impact key players in the Middle East?

For Russia, Syria's fall could mean losing its closest Middle Eastern ally and undermining its ability to project power while it fights a war in Ukraine. For Iran, it could shatter its so-called Axis of Resistance, comprising allied states and militias. Here's how the events in Syria could impact key players in the Middle East:

Will Syrian rebels make an advance to Aleppo after Israel weakened Hezbollah?

Hadi al-Bahra, a Syrian opposition leader representing anti-Assad groups, including the Turkey-backed Syrian National Army (SNA), said rebels felt encouraged to make an advance for Aleppo last week after Israel debilitated Hezbollah and weakened Iran's footprint in the region.

Will we build a new Syria?

We are going to build a new Syria. We will bring back all Syrians and make sure it's only one country, only one community, and that Syrians are making the decisions in this country. "Syrians attend Friday prayers outside the Umayyad Mosque, which was built in the early 700s and is the largest in Damascus.

Why is Syria reliant on Iran?

Syria's 13-year civil war crippled the country's energy sector, making it highly reliant on imports from Iran. Below are facts about Syria's energy sector. **Syria has not exported oil since late 2011, when international sanctions came into force, and has become dependent on fuel imports from Iran to keep power supplies running.

Will Syria's fall of Aleppo disrupt Iran's proxies?

In Syria, Israel has consistently targeted Iranian personnel and supply routes used to transfer weapons to its proxies. The fall of Aleppo and potentially other cities bordering Lebanon could further disrupt those routes, placing Iran in a difficult position.

Aura Power has secured project financing to fund the construction of its Kemble solar farm near Cirencester, UK. This is the first UK project in its portfolio that the company will be taking into construction and operations.
