Verdant Solar was founded in 2013 and has risen to be among the top solar companies in Malaysia. Based in Petaling Jaya, Verdant has offices throughout Malaysia and has helped over 2,000 homes access cleaner energy through solar. Verdant also deals in Commercial Solar and has helped companies such as Daikin and Petronas install solar.

How do solar energy systems work in Malaysia?

Currently, Malaysia's solar energy systems are primarily dominated by grid-connected systems. Grid-connected systems are directly tied to the local electricity grid, which allows excess energy to be sent back into the power grid for use elsewhere. This is what most urban and utility-scale facilities use.
