Does Azerbaijan have an independent energy regulator?

Azerbaijan does not have an independent energy regulator. In 2017, the President of Azerbaijan signed a decree to establish an Energy Regulatory Agency under the Ministry of Energy. The Ministry of Economy regulates licensing procedures, while tariffs are set by the Tariff (Price) Council, chaired by the Minister of Economy.

Which energy sources are used in the transport sector in Azerbaijan?

Most oil products used in the transport sector are produced in Azerbaijan. TFC consists mainly of natural gas (43%) and oil products (39%), followed by electricity (15%). Renewable energy sources, including hydro, contributed 1.5% to total energy supply in 2022 and 6% (1.8 TWh) to electricity supply.

What is Azerbaijan's energy policy?

The 2004 State Programme on the Development of the Fuel-Energy Complex for 2005 to 2015, designed to support oil and gas developments and to ensure energy supply security, set out Azerbaijan's main energy policy.

What is Azerbaijan's energy regulatory agency?

In 2017, the President of Azerbaijan signed a decree establishing the Energy Regulatory Agency under the Ministry of Energy to regulate relationships among producers, suppliers and transmission system operators and distributors, as well as customers in the field of electricity, heat and gas supply.

How much energy does Azerbaijan need?

Azerbaijan's energy demand (measured as total energy supply [TES]) was 16.1 million tonnes of oil equivalent (Mtoe) in 2022 (according to preliminary data from the State Statistical Committee). Azerbaijan is a major producer of crude oil (32.7 Mt including natural gas liquids in 2022) and of natural gas (35.0 bcm in 2022).

How much electricity is produced in Azerbaijan in 2022?

Electricity generation in Azerbaijan has increased by more than 50% since 2010, amounting to 29.0 TWh in 2022. It is mostly generated by natural gas (more than 90% in 2022). Azerbaijan's sole refinery produced around 6.5 Mt of oil products from domestic crude oil and natural gas liquids in 2022.

Abu Dhabi-based IntelliGrid has signed a \$480 million deal with Azerbaijan's state-owned energy firm, SOCAR, to upgrade the country's energy infrastructure by integrating artificial intelligence (AI) technologies.
