

The Republic of Azerbaijan has adopted new laws that allow citizens to sell their energy to the state. Now, people who use solar panels, wind turbines or other renewable energy sources can not only reduce their energy costs, but also make a profit by selling the excess energy to the grid. The main advantages of the new law:

Power plants of various capacities covering an area of thousands of square meters on a commercial scale are installed by means of solar panels. Solar panels can be installed on the ...

3 ???· Provitaz is a social business providing world class EPC services to the solar industry in emerging economies all over the world from our headquarter in Baku, Azerbaijan since 2013

There are numerous solar power companies and suppliers in Azerbaijan that manufacture individual and commercial scale solar power systems. This makes it easy to make a shift for homeowners or businesses looking to rely on solar energy sources.
