Efficient Solar-Powered Outdoor Lighting Solutions. Harness the power of the sun with OEO's efficient solar light solutions. Our solar lights offer sustainable illumination with motion sensor capabilities, ensuring enhanced security and energy savings for your outdoor environment. Versatile Solar Lighting for Commercial and Industrial Settings

Our line of ballast compatible LED bulbs are the easiest way to upgrade your legacy, inefficient lighting to LED. Simply unscrew and remove the old bulb, screw in the LED. No rewiring, no ballast bypass, no electrician needed. Immediate energy savings coupled with reduced labor installation costs makes for a fast ROI / payback period.

2 ???· To calculate energy savings, compare the wattage of your current lighting system to the wattage of the proposed LED system. Use the formula: Energy Savings=(Current Power ...

The ballast is not needed for LED because they use much less energy to achieve better brightness. New fixture : if your fixtures are so outdated that neither direct replacement nor retrofitting will work, we can install a new fixture.
