

# Balcony wall mounted solar bracket

What is a solar panel mounting bracket?

Refer to section "Installation handover" This solar panel mounting bracket is a robust and versatile galvanised mild steel bracketsuitable for mounting a variety of solar panels between 20W and 150W in size,against a wall or on a post.

How to mount a solar module on a balcony?

To mount a solar module on a balcony,you can use our mounting system. Your balcony railing serves as a secure mount and you attach the solar module with fastening clamps that can carry a load of up to 300kg per clamp - T&#220;V tested. The module is then firmly clamped in profile rails and fixed with four clamps.

Can a solarbalcony affix to a balcony?

Thanks to large adjustment,this balcony mounting design can affix to most common size balconies. And it is compatible with metal railings. Completely pre-assembled,the SolarBalcony simply need to be unfolded and secured to the balcony for installation.

What is solarbalcony made of?

SolarBalcony contains only 6005-T5 Aluminium alloy and 304 stainless steel,in different anodised thicknesses,which makes it suitable for even the toughest of environments,such as corrosive sites close to the coast. Standardized components are suitable for 60cell as well as for 72cell panels.
