Who is Ballard Power Systems Europe?

Ballard Power Systems Europe A/S is engaged in the development, sale and production of fuel cell technology systems. For several years, Ballard Power Systems Europe has been devoting considerable resources to the development of commercial products based on the fuel cell technology. The development has continued in 2019.

What does Ballard do?

Here, we are active in fuel cell system development, production, applications engineering, and business development. In addition, we conduct after-sales service support for all Ballard products in Europe. Currently, these products include: 450 stationary systems to backup critical communication infrastructure.

Who is Ballard Europe?

We are one of Europe's leading fuel cell companies, with 50 employees in Denmark mainly focused on R&D, engineering, manufacturing and service, plus a commercial presence in Germany, the UK, and France. Our plans are for continued growth of this essential footprint in Europe. Ballard Europe prides itself on having a complete value chain.

Where is Ballard Europe located?

Ballard Europe prides itself on having a complete value chain. Our European Competence Center is located in Hobro, Denmark. Ballard European Competence Center in Hobro, Denmark Here, we are active in fuel cell system development, production, applications engineering, and business development.
