

Barbados bess products

Why is Barbados partnering with the Bess consortium?

Barbados is committed to playing a leading role in urging concrete deliverables on climate and climate financing. We are here with the BESS Consortium today because we support their efforts to improve access to battery energy storage systems as part of the energy transition in countries like ours.

What is the Bess consortium?

The BESS Consortium is a multi-stakeholder partnership set up to ensure these BESS benefits transform energy systems across low- and middle-income countries (LMICs). The Consortium is on track to meet its target of securing 5 GW of BESS commitments by the end of 2024 and deploying these by the end of 2027.

Where is ADB implementing Bess projects?

ADB is implementing BESS projects across Asia and the Pacific, from small-scale projects in the Maldives, Philippines, and Pacific Islands, to large-scale projects in Cambodia, Thailand, and Mongolia.

Why is Bess a critical technology?

BESS is a critical technology to achieve that goal, but progress is being severely hindered by unfavorable policies and regulations, high financing costs, long project lead times, and other challenges.
