

Barbados stellaris solar panels

It's incredibly efficient in the early game when Gestalts will be building their first solar panels, because it breaks the limit on building construction, alloys, and science (if hives) ...

I didn't say you shouldn't use them, I was just wondering why it takes research to do so. We use solar panels NOW. Its odd that the game starts you out with FTL and nuclear powerplants but not solar panels

In practice, Solar Panels fulfill a completely different role from Trade Hubs. In the late-game they are strictly inferior to Anchorages, and they are primarily used as early-game productivity tools that do not require pops to work in jobs.

I didn't say you shouldn't use them, I was just wondering why it takes research to do so. We use solar panels NOW. Its odd that the game starts you out with FTL and nuclear powerplants but ...

You cant reasonably compare trade hubs to solar panels, because they are doing very different things, yet solar panel are stable source of energy, while trade hubs are high risk high reward module, very specific, and strategically placed, can ...

On one hand we have people who don't like sectors because they want to manage all 100 billion colonies they have and on the other hand there are people who want automation on everything because can't be bothered to go through their spaceports to check whether they have solar panels on them. But to answer the question.

On one hand we have people who don't like sectors because they want to manage all 100 billion colonies they have and on the other hand there are people who want automation on ...

So every star fortress can have 6x Solar Panel network which will give you let's say 10EC/month per panel. A star fortress costs 5EC upkeep - so we have a total of +55EC per star fortress. Every star fortress over your limit increases ...

So every star fortress can have 6x Solar Panel network which will give you let's say 10EC/month per panel. A star fortress costs 5EC upkeep - so we have a total of +55EC per star fortress. Every star fortress over your limit increases upkeep by 0.25.

It's incredibly efficient in the early game when Gestalts will be building their first solar panels, because it breaks the limit on building construction, alloys, and science (if hives) being gated by a purchase of 52
