

Beam energy limited St Vincent and Grenadines

The primary goal of the Energy Action Plan is the incorporation of renewable energy into electricity generation mix in Saint Vincent and the Grenadines to achieve the targets outlined in the National Energy Policy.

Telcom, now Beam Europe's power electronics team, will be tasked with creating bespoke solutions to replace third-party products enabling Beam Global to retain margin and create products with lower failure rates which are better suited for the unique attributes of Beam's patented product portfolio.

Beam Energy Limited offers turn-key high-end Instrumentation, Automation & Control systems, Metering and System Integration solutions such as HMIs, PLC systems, SCADA systems, and DCS systems.

Enabled by Beam Global's patented EV ARC(TM) platform, the BeamWell(TM) system is completely self-contained, shipping-container-transportable, and deploys in minutes with no construction, no electrical work and no requirement for any supporting infrastructure. It can be relocated as water supply challenges fluctuate.
