Why do people worry about solar panels?

Some are put off by uncertainty about costs, others believe the installation will be disruptive and many worry that solar panels will be tricky to maintain. These were among the most common questions and concerns people had about getting solar panels, according to a government report in July 2021.

Are solar panels a scam?

With that demand comes fierce competition within the solar panel market. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are still many honest and reliable solar panel companies on the market, it can be hard to differentiate the good guys from the rest.

Is my solar panel installer going out of business?

If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In this instance, it turned out to be a scam. Instead, check your original installer's website and try the contact details you were given when your panels were installed.
