

Belgium alfen battery

Does Alfen have a battery energy storage system?

Alfen delivered its 1 MW battery energy storage system "TheBattery" to Engie's power generation plant in Drogenbos (Brussels). This is the first battery based storage system in Belgium to provide grid stability since the grid operator opened its network for battery systems in May this year.

What is Alfen Belgium?

Alfen Belgium is a household name in the field of EV charging and industrial battery storage projects in Belgium and a thought leader at the heart of the energy transition focused on limiting climate change. Yves Vercammen, Country Manager of Alfen Belgium, is excited to see where his team stands today.

Who is Alfen & Centrica Business Solutions?

Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, and Centrica Business Solutions, a global leader in decentralized end-to-end energy solutions, are working together to build Centrica's first battery storage development project in mainland Europe.

What does Alfen do?

Alfen will manage design, supply, civil works, installation, tests and long-term maintenance. Once operational, Centrica Energy Trading will employ a multimarket optimisation strategy to allow energy to be stored, then sold and deployed to the grid when supply outweighs demand or when there is a need for additional power on the grid.

When will Alfen & Centrica Energy Trading start work?

Work on the project will start later in 2023. Alfen will act as the turnkey supplier, managing the design, supply, civil works, installation, tests and long-term maintenance of the storage project. Centrica Energy Trading will use a multimarket optimisation strategy to enable energy storage and sale to the grid once the facility is operational.

How will a flexible energy storage system help Belgium?

The storage system will participate in Belgium's capacity market as the country seeks a long-term green power supply and plans to close five of its seven nuclear reactors by 2025. With a flexible energy storage system, renewable energy can be stored at times of abundance and released when there is high demand for it.

Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, and Centrica Business Solutions, a global leader in decentralized end-to-end energy ...

Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, and Centrica Business Solutions, a global leader in decentralized end-to-end energy solutions, are working together to build ...

Alfen's ongoing installation of battery storage technologies at Katoen Natie's facilities are expected to further expand the logistics provider's sustainable storage capacity in ...

Centrica Business Solutions is set to deploy a 24MW/54MWh two-hour-plus battery energy storage system (BESS) in Belgium via Alfen, a Netherlands-based company. Alfen will provide its "TheBattery" BESS product ...

Alfen is a Netherlands-based company active internationally in the energy storage and smart grid markets. Image: Alfen NV. Netherlands-based Alfen is deploying a two-hour-plus battery energy storage system (BESS) for ...

Alfen delivered its 1 MW battery energy storage system "TheBattery" to Engie's power generation plant in Drogenbos (Brussels). This is the first battery based storage system in Belgium to ...

First battery storage project in Belgium. Alfen is the first company to install a battery based energy storage system to provide so-called Frequency Containment Reserve (FCR) for stabilizing the ...

Alfen delivered its 1 MW battery energy storage system "TheBattery" to Engie's power generation plant in Drogenbos (Brussels). This is the first battery based storage system in Belgium to provide grid stability since the grid operator ...

Working in partnership with Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, the battery will provide storage capacity for wind and solar ...

Centrica Business Solutions has paired with Dutch energy solutions provider Alfen to deliver a 24MW/54MWh battery energy storage system for its project in Ostend, Belgium. This will be Centrica's first battery storage ...

Centrica Business Solutions has started work on a 24MW battery storage facility in Ostend, Belgium as it expands its portfolio of energy assets outside of the UK for the first ...

Working in partnership with Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, the battery will provide storage capacity for ...

Working in partnership with Alfen, an energy solutions specialist at the heart of Europe's energy transition to limit climate change, the battery will provide storage capacity for wind and solar farms across Belgium.
