

Advanced Power Solutions is a sustainability oriented mobile energy consumer battery manufacturer established in Tessenderlo, Belgium since 1970. Under its mission to provide easy, safe, and sustainable mobile energy solutions, the company has a production capacity of 1.5 billion batteries per year.

The technology is intended to be complementary to intermittent energy production solutions such as photovoltaic panels or wind turbines that do not allow a controlled energy production. It is also intended to complement other energy storage solutions currently under development such as pumped storage.

At Clear Power Solutions Inc, we are proud to be able to offer our customers a wide number of options for their power and energy needs. Whether you're interested in alternative power sources such as solar power, or you need batteries for jobs both big and small, our expertise can help match you with what you need. ...
