What is Nordic Solar's Solar Park?

The solar park has been built using Nordic Solar's proprietary, patented design for bifacial solar panels which produce energy from both the front and back. In addition, a number of initiatives to promote biodiversity in the area have been included in the development of the solar park.

Who owns Nordic solar?

Nordic Solar A/S - A solar energy company owned by private shareholders. To find out more, please visit our website at [Vil du vide mere om investeringer i solenergi, er du velkommen til at sende en besked.](#) Nordic Solar publishes financial report for the first quarter 2024 Today, Nordic Solar released its Q1 report.

Will Nordic solar build a second solar park in Sweden?

We are therefore very pleased to start the construction of our second solar park in Sweden now, which is also the largest we have built in the country to date," says Nikolaj Holtet Hoff, CEO of Nordic Solar.

How did Nordic solar perform in the quarter?

During the quarter, Nordic Solar experienced good progress across the portfolio of projects, introducing new greenfield projects in Sweden, maturing the development portfolio, completing a 100 MWp construction in Lithuania and divesting a solar park in Portugal.

What is the largest solar park in Lithuania?

The solar park is our largest to date, also the largest in Lithuania. The official opening marks Nordic Solar's first major investment in Lithuania: a 100-MWp solar park with the capacity to produce power equivalent to the annual consumption of approximately 28,000 European households.

Formålet med Nordic Solars finansielle kommunikation og øvrige aktiviteter for investorer er at sikre, at aktionærerne har adgang til relevant, præcis og rettidig information. Derfor ønsker Nordic Solar at have en aktiv og gennemsigtig dialog med alle aktører på det finansielle marked.

With its size and capacity, the solar park is the largest in Lithuania to date and a milestone on Nordic Solar's growth journey. Nordic Solar's own patented sub-structure design will optimise energy production and shorten installation time. ...
