

As my honourable colleagues on this side of the aisle have consistently reiterated, this Government delivers on its mandate as promised to the people of Bermuda in reducing the cost of Government while also encouraging the use of alternative energy.

6 ???· Bermuda Is Love invites the public to a Solar Panel Discussion on Wednesday [Dec 11] from 6.00pm to 8.00pm at Devonshire Seventh-day Adventist Church. A spokesperson said, "Have you ever ...

5 ???· A charity will host a panel talk tomorrow to break down the basics of solar panels. The four-person discussion, hosted by Bermuda Is Love, will explain how the energy panels work, how they can...

And now, almost three and a half years later, Bermuda has reached the historic milestone of having its first utility-scale solar power facility on "The Finger", located at the L.F. Wade International Airport.

Bermuda is quickly turning to alternative sources of energy to meet the growing demand for electricity. The government and several private companies being the forefront of this renewed effort. Solar power is one of the alternative sources of energy being utilized.

Bermuda's sustainability and renewable energy strategy have us positioned to become a regional leader in this arena. Led by the Ministry of Home Affairs, the Bermuda Government continues to encourage the adoption of solar technologies and energy efficiency.
