The 1979 Pacific typhoon season featured the largest and most intense tropical cyclone recorded globally, Typhoon Tip. The season also used both male and female names as tropical cyclone names for the first time. Additionally, the season was slightly below-average in terms of tropical cyclone activity, with only 24 storms, 12 typhoons, and 4 super typhoons developing.

We assist clients with new facilities, designs for upgrades, or retrofits to existing locations for conversion to BESS facilities. We have designed systems with pre-engineered metal, concrete tilt-up, outdoor enclosures, and custom racking design for minimizing footprint while maximizing available battery capacity.

While written at a 4th-grade reading level, A History of Guam is a valuable reference for any student of Guam's history. Enhanced by historical photos from Guam's museum collections, as well as modern color photos, this carefully ...
