

# Best power station Ecuador

What is Ecuador's largest hydropower plant?

CCS is the country's largest hydropower plant by generation capacity. Ecuador's state-owned electricity company CELEC imports electricity from neighboring Colombia, costing \$400 million in 2022. It is also increasing diesel purchases from Petroecuador to power its thermal electric power plants.

How many hydropower plants are there in Ecuador?

Ecuador has eight large scale hydropower plants in the East with 3,885 MW of installed capacity. This includes Coca Codo Sinclair (1500 MW) and Paute Molino (1,100 MW).

What percentage of Ecuador's Electricity is produced by hydropower?

In 2021, hydropower produced 79% of Ecuador's electricity, and fossil fuels produced less than 20%. Ecuador's mountainous terrain and numerous rivers are conducive for hydropower. The Coca Codo Sinclair Hydroelectric Plant, located on the Coca River, is Ecuador's largest hydroelectric facility with 1,500 megawatts (MW) of capacity.

How much power does Ecuador need a year?

Electricity demand grows by 200 MW every year, meaning Ecuador should add 250 MW or 300 MW of new power generation each year. However, Ecuador has added minimal additional generation in the last three years.

How much power does Ecuador have in 2021?

The peak demand in the SNI reached 27,367 GWh in 2021, 1.36 per cent higher than the previous year. Ecuador's transmission network comprised about 6,268 km of line length and 16,886 MVA of transformer capacity at the 138 kV to 500 kV voltage levels as of 2021.

What is the 500 kV Peru-Ecuador interconnection project?

500 kV Peru--Ecuador Interconnection Project The project, part of the Transmission Plan 2017-26, entails establishing a 635-km-long 500 kV line from the Chorrillos substation in Ecuador to the La Niña substation in Peru.
