TESUP has empowered me to lead a more sustainable lifestyle." Explore New Zealand's best home wind turbines and solar panels by TESUP.

Are wind turbines a good alternative to solar?

The improvement of solar technology has meant that homeowners now benefit from solar power. Wind turbines in residential areas are the ideal complement to solar. The Thinair Wind Turbine, either alone or as part of a mixed energy system, provides clean, quiet, and cost-efficient power for homes throughout New Zealand and the Pacific.

Are wind turbines a good investment?

Our wind turbines have been selected to suit New Zealand conditions and are very robust and warranted to winds over 200 km per hour, well over NZ wind speeds. They are quiet and easy to maintain. They have a design life of 25 years but with a small overhaul significantly longer. They are therefore a very good property investment.
