Total production of electricity ...

With 189 member countries, staff from more than 170 countries, and offices in over 130 locations, the World Bank Group is a unique global partnership: five institutions working for sustainable solutions that reduce poverty and build shared prosperity in developing countries.

Overview. The Guinean government has announced a long-term energy strategy focusing on renewable sources of electricity including solar and hydroelectric as a way to promote environmentally friendly development, reduce budget reliance on imported fuel, and to take advantage of Guinea's abundant water resources.

Guinea has considerable renewable energy resources, particularly for hydroelectricity for which around 4740 MW of potential has been detected. The energy demand in Guinea is projected to raise considerably and - according to government forecast - additional capacity between 535 and 1838 MW would be necessary by 2025. ... Guinea-Bissau.
