

Bonaire Sint Eustatius and Saba energy transition solutions

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

How much does energy cost in Bonaire?

This profile provides a snapshot of the energy landscape of Bonaire, a special municipality of the Kingdom of the Netherlands located on the coast of Venezuela. Bonaire's utility rates are approximately \$0.35 per kilowatt-hour (kWh), above the Caribbean regional average of \$0.33/kWh.

Who regulates Bonaire?

As a special municipality of the Kingdom of the Netherlands, Bonaire is largely regulated by ministries of the Netherlands' national government.

Does Bonaire have a regulated electricity sector?

In recent years, the Ministry of Economic Affairs in the Netherlands has been active in reforming the regulation of the electricity sector in Bonaire, both in terms of utility regulation and expanding generator access.¹³

Does Bonaire have a utility company?

The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island. WEB is a government-owned entity and is strictly a distribution utility, owning no generation of its own.

How has Saba's energy policy been supported by the Dutch government?

Later with the Dutch Government, Saba's energy policy has been supported throughout by the Dutch Government, first by agreeing jointly with the Saba Government on the policy objectives, and then by commissioning a series of studies to help understand the energy options and

Each island has a relatively small population: Bonaire (around 22,000), Sint Eustatius (around 3,200), and Saba (around 2,000) residents. Key economic sectors include tourism, particularly diving and nature-based tourism on Bonaire and Saba, oil storage and transshipment on Statia, and limited agriculture and small industries.

Our precision autotuning and combustion optimization platform uses live data so that you can operate on your own terms, even in extreme conditions. Our advanced technology and patented sensor-based algorithm continually monitors and automatically fine-tunes combustion parameters, responding to live metrics to maintain NOx and CO emissions compliance, flame stability and ...
