

Bosnia and Herzegovina solar plate and battery

Can solar power plants be used in Bosnia & Herzegovina?

From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants. It was estimated that energy produced from solar power plants could be 70.5 × 10⁶ GWh/year and the most suitable area is Herzegovina.

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

Does Bosnia and Herzegovina have a potential for geothermal energy?

Immense potential also lies in Bosnia and Herzegovina's geothermal energy, however without significant interest of authorities in the development due to initial investments in geothermal heating, which are significantly higher compared to other conventional heating systems.

How many biogas power plants are there in Bosnia & Herzegovina?

Currently, there are 2 biogas power plants in Bosnia and Herzegovina, one in Banja Luka and the other in Lower Zabar near Brčko District. However, these are very small plants, with insufficient power and an impact on savings.

What is the potential for bioenergy in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization.

How many hydropower plants are there in Bosnia and Herzegovina?

There are 390 planned hydropower plants and 35 are under construction. It is evaluated that hydropower plants could provide 9,000 GWh of maximum generated energy. Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity.

Greenstat's first solar power plant in Bosnia Herzegovina has reached an important milestone. The Norwegian company said the Petnjik photovoltaic system has transitioned from the construction phase to testing.

Two international consortiums plan to invest a total of EUR 160 million in two solar power plants in the municipality of Sokolac in Bosnia and Herzegovina (BiH). At the same time, the Central Bosnia Canton has invited bids for a concession for two photovoltaic power plants in the municipality of Bugojno.

Bosnia and Herzegovina solar plate and battery

Scaling-up Solar PV in Bosnia and Herzegovina October 020 1. Introduction Bosnia and Herzegovina has applied for membership of the EU. Once the country joins the EU it will need to adopt the EU Climate Acquis in its entirety, which will result in significant changes in incentives in the power sector.
