The Steca Solsum is one of the most sold charge controllers on the market. It is optimally suited for use in solar home systems with load currents of up to 10 A at 12 V/24 V and up to 240 Wp module output. The Solsum C generation has a completely protected circuit board and is distinguished by its clear display, which uses two LEDs.

The feature packed Steca PR10-30 series controllers are the highlight in the Steca range. The latest charging technologies, combined with a significantly improved Steca-AtonIC state of charge determination, result in optimal battery maintenance and control of the module output of up to 900 Wp which can be connected to it
