

Brazil battery manufacturing companies in

Who is launching a battery company in Brazil?

Brazilian battery manufacturer Moura, fuel-cell producer Electrocell, and a consortium formed by Companhia Brasileira de Metalurgia e Mineração (CBMM) and Japanese Toshiba, also plan to establish a presence in the segment.

Will BYD Build a battery factory in Brazil?

BYD is also reportedly planning to build a battery materials factory in Chile. Other carmakers are also flirting with production in Brazil, such as Chinese carmaker Great Wall Motor (GWM), which plans to open an EV factory in the Brazilian state of São Paulo next year.

How much lithium does Brazil produce?

Brazil produced only 600 metric tons (mt) of lithium in 2018, accounting for about 0.7% of the global market. The country's entire output of the mineral was mined by Companhia Brasileira de Lítio (CBL), a company co-owned by CODEMGE.

Which carmakers are making EVs in Brazil?

Other carmakers are also flirting with production in Brazil, such as Chinese carmaker Great Wall Motor (GWM), which plans to open an EV factory in the Brazilian state of São Paulo next year. VW, too, announced this week an investment of one billion euros by 2026 for a product offensive in South America - especially in Brazil.

Where is BYD based in Brazil?

In Brazil, BYD opened its first plant in 2015 that produced electric bus chassis, as well as selling electric vehicles and forklifts in Campinas, also located in São Paulo state. In April 2017, it inaugurated its second plant for photovoltaic modules, consolidating itself as one of the leaders of this important market in Brazil.

Why is BYD bringing electric buses to Brazil?

BYD is a pioneer in bringing fleets of electric buses to Brazil. In addition to being non-polluting, electric buses are significantly more economical, with lower operating costs than conventional diesel buses. In comparison with diesel, the cost of electricity is equivalent to just 25% of refueling a diesel vehicle.

In 2020, BYD opened its third manufacturing plant in the country in Manaus, specifically for lithium iron phosphate batteries. BYD Brazil has 365 employees in the cities of Campinas, São Paulo, Salvador, Manaus, Vitória, Curitiba and Rio de Janeiro.
