

When is Li-ion battery Europe 2024?

Li-ion Battery Europe 2024 is taking place on 8-10 October 2024 in Brussels, Belgium uniting more than 1000 professionals in the field of lithium-ion batteries. The second edition of Li-ion Battery Europe 2024 is taking place on 8-10 October 2024, in the EGG, in Brussels, Belgium.

Where will battery demand be in 2035?

In the STEPS, China, Europe and the United States account for just under 85% of the market in 2030 and just over 80% in 2035, down from 90% today. In the APS, nearly 25% of battery demand is outside today's major markets in 2030, particularly as a result of greater demand in India, Southeast Asia, South America, Mexico and Japan.

Will EV battery demand grow in 2035?

As EV sales continue to increase in today's major markets in China, Europe and the United States, as well as expanding across more countries, demand for EV batteries is also set to grow quickly. In the STEPS, EV battery demand grows four-and-a-half times by 2030, and almost seven times by 2035 compared to 2023.

Are 2/3w batteries more important in emerging economies?

This also affects trends in different regions, given that 2/3Ws are significantly more important in emerging economies than in developed economies. As EVs increasingly reach new markets, battery demand outside of today's major markets is set to increase.
