What is Brill Power's Battery intelligence platform?

The Battery Intelligence Platform: Transforming stationary energy storage and electric vehicles. Brill Power's Battery Intelligence Platform brings transformational advances in longevity, performance, cost and sustainability to electric vehicles and stationary energy storage.

What is a BrillMS battery management system?

The BrillMS enables battery system developers to create the safest, most reliable battery systems while ensuring the lowest possible cost of ownership for their customers. Brill Power, an Oxford University spin-out company, has launched the first in a new class of 'intelligent' battery management systems (BMS).

Why did Brill power raise \$10.5m in 2022?

Brill Power successfully achieved a Series A round raising of \$10.5m in 2022 to support their mission to make batteries smarter, cleaner, safer and longer-lasting as a critical element of the shift to zero emissions energy.

What is BrillAnalytics?

BrillAnalytics delivers end-to-end data and insights for safe and optimal battery use. BrillAnalytics delivers end-to-end data and insights for safe and optimal battery use, with predictive analytics and a flexible interface. Our unique patented active loading technology creates maximal lifetime, performance, and reliability.

Does Eswatini have a language policy?

Throughout its recent history and mandated constitutionally, language policy in Eswatini (formerly Swaziland) requires the use of two principal languages--siSwati and English; however, there has been and continues to be a tension between policy and practice, notably in education.

Brill Power successfully achieved a Series A round raising of \$10.5m in 2022 to support their mission to make batteries smarter, cleaner, safer and longer-lasting as a critical element of the shift to zero emissions energy. The funding supports team growth and new product development to expand presence in both static energy storage and the ...

It's been a busy month at Brill Power where our BESA BP6X1 has gone through rigorous testing and is beginning shipments to customers. To get the most out of our Battery Management System+, we are also thrilled to be launching our three cloud-based products from the BrillAnalytics range.

Solving the conundrum of uncertain battery life span of batteries for owners and operators of Battery Energy Storage through innovative battery controls, Brill Power is a prime example of how the expertise coming out of the university can be a powerful actor in the race to decarbonisation.

was closed down by the Eswatini authorities on the premise that it had never been properly registered. There
