The British Indian Ocean Territory has some of the most biodiverse waters on the planet with over 220 species coral, 855 species of fish and 355 species of molluscs. To ensure the future protection of this unique environment the BIOT Commissioner declared a 640,000 km²; "no-take" (where all commercial fishing and extractive activities are ...

The British Indian Ocean Territory (BIOT) is an Overseas Territory of the United Kingdom situated in the Indian Ocean, halfway between Tanzania and Indonesia. The territory comprises the seven atolls of the Chagos Archipelago with over 1,000 individual islands, many very small, amounting to a total land area of 60 square kilometres (23 square ...

Ocean Winds (OW) and the Universidade Federal do Rio Grande do Norte (UFRN) in Brazil have signed a memorandum of understanding (MoU) to enhance the country's offshore wind energy capabilities. The collaboration will utilise OW's significant global experience, including 18.5GW of total capacity, with 2GW under construction and 1.5GW already ...

While presenting a huge potential, the technology overall for ocean energy is still at an early stage of development. Tidal barrage and stream, wave energy, salinity and temperature gradient are the main sources of ocean energy. Wave ...

This innovative vessel, equipped with Bergen's state-of-the-art technology, is set to revolutionize subsea operations and renewable energy projects. The Bergen C25:33L9A generating set is a cornerstone of this vessel's capabilities, renowned for its unmatched reliability and performance.

The AFREC mandate is implemented under four main programme areas, developed and approved by the Specialised Technical Committee (STC) on Transport, Transcontinental and Inter-regional Infrastructure, Energy and Tourism (STC-TTIET) held in Cairo, Egypt in April 2019.

It is good indeed to discuss the sovereignty of the British Indian Ocean Territory. I understand the hon. Member undertook a visit to the islands back in 2020--maybe even further back--after claims that the UK's exit from the European Union could hinder the sovereignty of the British Indian Overseas Territory. The hon.

While presenting a huge potential, the technology overall for ocean energy is still at an early stage of

British Indian Ocean Territory edge energy solutions

development. Tidal barrage and stream, wave energy, salinity and temperature gradient are the main sources of ocean energy. Wave energy and tidal stream converters are the most mature and applicable across different geographies. Global total ...
