

# Burundi 60kva solar system

Where is a solar power station located in Burundi?

The power station is located in the settlement of Mubuga, in the Gitega Province of Burundi, approximately 15.2 kilometres (9 mi), northeast of the city of Gitega, the political capital of that country. This power station is the first grid-connected solar project developed by an IPP in Burundi.

What is the solar PV project in Burundi?

The solar PV project in Burundi is a 7.5 MW plant located in Mubuga. Interconnection is expected in Q3 2020, which will increase Burundi's installed electricity capacity by 14%.

How many people were hired to operate Burundi's solar power station?

Another estimated 25-50 people were hired to operate the power station. In May 2023, Evariste Ndayishimiye, the president of Burundi, toured the solar farm and personally gave his approval for the power station's capacity to be expanded to 15 megawatts.

What does Burundi's solar plant announcement mean for the energy sector?

According to Geoff Sinclair, Managing Director of Camco Clean Energy, which manages REPP: "Once built, the solar plant will add nearly 15% to Burundi's generation capacity using clean energy." (This passage directly answers the question about the impact on the energy sector.)

Who is behind Inspired Evolution's solar PV project in Burundi?

Christopher Clarke, Managing Partner at Inspired Evolution, congratulated all parties involved in getting the project to this stage for their part in realising a high development impact solar PV generation plant in Burundi.

What is Gigawatt Global Burundi's Power Purchase Agreement (PPA)?

A 25-year power purchase agreement (PPA) governs the sale of electricity between Gigawatt Global Burundi SA and REGIDESO. The engineering, procurement and construction (EPC) contractor was Voltalia of France, which was also awarded the operations, management and maintenance contract.

Off Grid Solar Power System. On Grid Solar Power System. Off grid solar power system doesn't connect to the power grid. In general, it includes solar panels, charger controller, batteries and inverter. This system will store the solar power into the batteries, batteries energy will be converted the electricity power to supply the appliances ...

7.5 MW field result of multinational effort already provides more than 10% of nation's electric generation capacity; more to be developed Gitega/Mubuga, Burundi - 9 May 2023: President Ndayishimiye of Burundi today visited Gigawatt Global's solar power plant in Mubuga, Burundi, near the capital Gitega, the nation's first utility-scale ...
