How much do solar panels cost in New Jersey?

As of 2024, the average cost of solar panels in New Jersey is \$3.15 per watt, making a typical 7.2 kilowatt (kW) solar system \$15,876 after claiming the 30% federal solar tax credit now available. This is higher than the average price of residential solar power systems across the United States, which is currently \$3.03 per watt.

Are solar panels free in New Jersey?

It is even possible to get your solar panels installed for FREE in New Jersey, with no money down. REMEMBER, these costs can be reduced significantly if you work with a state-licensed specialist to apply for NJ solar incentives and programs that can drastically reduce the costs of solar!

Does New Jersey have a solar warranty?

New Jersey gets enough frequent rainfall to keep your panels free from dirt and dust, so you don't even need to worry about cleaning them yourself. If something breaks in your solar system, it will most likely be covered under your solar warranty.

How much does it cost to install solar panels?

Installing residential solar panels can cost between \$10,000 to \$30,000 or more, though individual costs vary significantly. On the higher end, we've talked to solar customers in New Jersey who spent \$55,000 to \$75,000 going solar. (Vina in Keansburg got a system worth \$55,000, and it cost James in Burlington \$75,000 to go solar.)

Should you pay for solar panels in cash in New Jersey?

Cash Purchase: Paying for your panels in full upfront gives you the best total savings since you start saving money on reduced electricity bills immediately. In New Jersey, paying in cash gives you an average lifetime savings of around \$23,806.

Does New Jersey have a solar investment tax credit?

The federal solar investment tax credit supports the cost of installation of renewable energy systems in New Jersey. This tax credit is currently 30% of the value of the solar system, and it is claimed on your taxes in the year after installation.
