Green Tech Energy provides top-notch solar panels, wind energy systems, and battery storage solutions in the Cayman Islands. Efficient, eco-friendly energy ...

A 100 MW solar farm would require approximately 587 acres (about 0.92 square miles) of land. To achieve equivalent daily production as a traditional power plant, a scaled-up 480 MW solar farm would need about 2,822 acres (about 4.41 square miles). This substantial land requirement is a significant consideration for our island's limited space.

Green Tech Energy provides top-notch solar panels, wind energy systems, and battery storage solutions in the Cayman Islands. Efficient, eco-friendly energy for your home and business.
