

Cayman Islands top solar companies in

What is Grand Cayman's first commercial solar project?

Grand Cayman's first commercial solar project, a 5 MW Solar Farm, was completed and commissioned in 2017. It is connected to the Company's Bodden Town Substation and provides energy to power approximately 800 homes with clean renewable solar energy.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.

What to do in Cayman if there is no sun?

Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery. These rechargeable lithium-ion batteries are wall mounted and can be stored either outside your home or inside your garage.

The solar panel installers in Cayman design and install each system to perfectly suit your home, budget and electricity needs. If you are interested in converting your energy to become renewable and sustainable, the following company can help: [Read More](#)

The Lake Destiny 5MW Solar Farm is the first utility-scale, commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

Cayman Islands top solar companies in

At 17.5 to 21 cents per kWh, CORE roof-top solar will be 60% to 90% more expensive than industrial-scale solar at 11 cents. Roof top solar is more geographically distributed across the island, which could reduce the risk of say a tornado destroying a single industrial-scale site. But, the higher probability event is a major hurricane that ...

Get the quotes and compare it for yourself. All the solar products in Cayman by building code have to be to North American standards and meet hurricane codes based on Miami-dade county standards. So in short solar in Cayman is extremely good value for money even compared to a giant market of \$300M people with a lower cost of living/doing business.
